

## Geneticist/Molecular Biologist

The Forensic and Investigative Science Program and the Department of Biology at Indiana University-Purdue University Indianapolis (IUPUI) invite applications for a tenure-track faculty position in **Forensic Biology** to begin August 1, 2010. Rank is open and competitive salary and start-up funds are available. The successful candidate will be involved in teaching in interdisciplinary B.S. and M.S. degree programs in Forensic and Investigative Sciences within the School of Science. A Ph.D. in molecular biology or a related area is expected. Postdoctoral training is essential for those who are early in their careers. Some experience in the analysis of DNA in a forensic setting is desirable. Applicants must demonstrate the ability to initiate and sustain an externally funded program of research, and be able to teach courses in DNA analysis and related courses at the graduate and undergraduate levels. Applicants at a senior level must have a record of research excellence, a history of external funding, and a strong record of mentoring students.

Interested individuals are encouraged to apply electronically to : [forensicbiosearch@chem.iupui.edu](mailto:forensicbiosearch@chem.iupui.edu) by sending a cover letter, a curriculum vitae, and a statement of research and teaching interests and background . Candidates should also arrange to have three letters of recommendation sent to the same address. Alternatively materials can be sent to: FIS Search Committee, Forensic and Investigative Sciences Program, IUPUI, 402 N. Blackford Street, Indianapolis, IN 46202 . Evaluation of completed applications will begin November 1, 2009 and continue until the position is filled.

The IUPUI campus located in downtown Indianapolis, has a student population in excess of 30,000 and attracts more external research funding than any other university campus in the State of Indiana. The Forensic and Investigative Sciences Program has a five year old BS degree with more than 120 majors and a new MS degree. Both the BS and MS degrees have concentrations in forensic chemistry and biology.

*IUPUI is an EEO/AA employer with a strong commitment to increasing faculty diversity—we seek to attract a diverse applicant pool for this position, including women and members of minority groups.*
